LITTLE GENIUS EXALT

Note to parents

"A small step for you. A giant leap for your child."

Dear Parent,

Your kid, like many other kids around the world loves being an all-rounder. He/she wants to excel in multiple areas, but may not get the opportunity to do so.

www.MySuperBrain.com is a website that increase your child's knowledge, creativity and provides a platform to showcase his/her skills to the whole world. We bring to you the best articles on various topic that are important for your kid to have a good understanding of the world around them. it includes articles on number crunching, verbal ability, science, general knowledge, health etc. We also conduct quizzes to test the knowledge of student and give them answers too so that their retention can also be improved.

Recognition is one of the most important motivating factors in school students, Every student silently, and sometimes very openly, craves for recognition. It gives them a lot of confidence when others applaud them for their skills. It improves the overall confidence in students and helps bring out the best in him/her.

We are a global platform for students to showcase their skills, with users from more than 30 countries, Student can participate in different competitions like essay writing, projects, painting, out of the box thinking, poetry, photography etc. Whenever a student participates in the competitors, parents, teachers, students, academicians, enthusiasts would be able to view the entries and give points for the work submitted. We have both crowd evaluation and expert evaluation. Apart from the recognition by various people, the student would also be able to discover his/her latent skills.

Student also get detailed analysis of their performances in competitions and quizzes. It gives a good understanding of the students' areas of interests, strengths and weaknesses. The article and educational games will help students improve their skills in all the areas.

We also publish our monthly magazine, Exalt. It is an activity based magazine to help improve students' interest and skill in multiple areas. The approach is to give students activities that ensures that they are understanding the concepts rather than just remembering the formulae or words etc.

Spot the DIFFeRENCeS

Dear Kids, you have two images. Both the images look the same, but they are not. There are a few small differences between both the images. Your task is to spot those differences.

The more differences you spot the better observation skills you have. Look carefully. Every small thing needs to be looked at carefully. Let's see how good your observation skills are.

Help **SQUIRReL**
get to the almonds.

FIND THE WAY

Chunni is waiting for her friend to come home!
But her friend **Munni** doesn't know the way !!!
Can you help Munni meet her friend?

MONU just forgot to do his mathematics homework. Can you finish it for him?

Finish it fast as Monu needs to submit the work to his teacher.

$$4 - 2 = ?$$

Count the total number of legs
